Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

Introduction

This Concise Version report draws upon 1,000 paragraphs which interpret the places of the planets at the time and/or date of your birth, describing your personal houses, sign placements, and planetary aspects.

These astrological delineations depict your potential and how to make the most of it, or the challenges you will continue to face and how to confront and benefit from them. Though you may change through experience, your inherent characteristics will still motivate how you act and react to circumstances. How you handle yourself is really a clue to your success, and it is up to you to make the "right" choices.

Here are the parts which make up your chart:

HOUSES: Govern sections of your life, e.g., your money, your health, your partners, etc. They are also meaningful as to where your early interests lie and if they are worth pursuing.

SIGNS: Contribute feelings or vibrations to "color" planets, e.g., MERCURY rules GEMINI and VIRGO and emphasizes their qualities of thought, travel, health, and work. JUPITER rules SAGITTARIUS and higher education, spiritual growth, and law.

ASPECTS: Are angles combining the planets in the SIGNS/HOUSES that trigger the manner in which you will be influenced or can handle your qualities to advantage, e.g., MERCURY (thought) TRINE (in good aspect to) JUPITER (education and law) may indicate that you can succeed as a counselor in legal matters.

A "Strength" number precedes each ASPECT interpretation towards the end of the reading. This number synthesizes how exact is the aspect, whether the aspect is major or minor, and whether an aspecting planet is close to one of the four chart angles. The higher the Strength, the more you are likely to feel the aspect and to live it out in your life.

You are most likely to feel and act out the Spirit Success Report's sign and house placement interpretations when the planets involved are strong in your chart. This is true especially of the outer planets, Jupiter through Pluto. The Astrodynes program, also available from Halloran Software, calculates the respective power and harmony of all the planets in your chart.

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

Planets in Signs and Houses

Pisces Ascendant

(The Poet)

Your large, round eyes are soulful, your hair curly or softly waving, and your thoughts brooding. Behind your rose-colored glasses is a brilliant mind that needs structure. But, you're not apt to get it in school, where you daydream rather than study. Extraordinary intuition will guide but not prepare you for success by ordinary means. Adhere to a spiritual plan of development: Envision, believe and then employ the necessary means to achieve your highest goals.

Sun in Virgo

(Keynote: I ANALYZE)

You are practical, modest, thoughtful and discriminating. You can be critical, withdrawn, narrow, and tend to worry too much, particularly about your health. You are hard to know because you are cool and reserved, but are a fine teacher, with an aptitude for figures, an ability to evaluate accurately, and an abundance of knowledge. Your sense of responsibility assures the most tedious task will be finished promptly and precisely. Your dry wit is often unexpected and appreciated, but when it turns to biting sarcasm can make even your best friends wish you'd stayed at home!

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

Sun in the Sixth House

(The Worker)

You seldom need time off, because your health is generally good, though you look forward to vacations where you can "get away from it all." You apply yourself to your work with gusto, because you have chosen your occupation with care and enjoy your position. You are particularly good in dealing with people and are popular with co-workers, though as a boss you may be too impatient with those who lack your efficiency. Your organizational ability makes you a valuable employee. You are bound to be appreciated with promotions and increases in your pay envelope as you accept added responsibilities.

Moon in Pisces

(The Wishful)

You go with your emotions and change your desires from moment to moment, but are always hopeful for the future. You are sensitive and easily discouraged by rebuffs; your potent imagination makes you susceptible to imagined hurts and slights. You may adopt food or fantasies as a panacea for disappointments in the love and understanding that are as important to you as breathing. Look for solid ground on which to stand. You can build a life that is productive and pleasurable by giving your artistic talents commercial expression to bolster your ego as well as your purse.

Moon in the First House

(The Mystic)

You value the counsel of a mother-figure, but may not take her suggestions. Women will always boost your sense of spiritual self-worth. You are deeply aware of your superb intuition, but are inconsistent, so may not use it to advantage. If you can't understand your actions, consider your rising sign, since you closely identify with your

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

ASC. You are affected by the emotions of others. Try to tune into their needs and help to achieve them.

Mercury in Leo

(The Dramatist)

You are highly emotional and speak forcefully; your words may not always be tactful, but they do have an impact. You're generous with advice, which is usually good and well-taken. Your gift of creativity may be shared and enjoyed by others who appreciate you. No party is complete without you, but your famous negative qualities of conceit and arrogance may make you an unwelcome guest. Listen to your keen intuition, which will tell you when it's time to go home.

Mercury in the Sixth House

(The Doctor)

An early interest in health may promote a career in healing arts, which may or not be in a conventional mode. Intuitive insights can lead to natural cures or dietary aids, often discovered through personal need. Charitable work is almost inevitable. Your dedication, inventiveness and analytical qualities make you a welcome asset to any team of your peers. You have the ability to be a true scientist who is equal to the most demanding challenge.

Venus in Leo

(The Extravagant)

Your infatuation with luxury prods you towards compulsive buying. You enjoy lavishing expensive gifts, dining or theater-going whether you can afford it or not. If you cannot manage the lifestyle you covet, you may try to create an illusion of opulence as a fantasy world of your own and discover gifts as a decorator or designer. Consider finding a way to utilize your talents in some form of theater that will attract the attention and plaudits you relish.

Venus in the Sixth House

(The Potter)

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

Money may be fairly easy for you to earn, but you will have to suppress a desire to spend it as quickly as you receive your paycheck. You'll be popular with co-workers and your employers and have a talent of making the best out of even-undesirable work environs. Your attitude is that of a potter, intent, not on the wet clay on his hands, but on the beautiful object he will produce through patience, effort and understanding of the shape he is molding.

Mars in Taurus

(The Juggernaut)

You may disregard your instincts for harmony, patience and even the practicality for which you are known and stubbornly "bull" your way towards your ambitions. You will work to capacity and, one way or another, gain all-important financial rewards; then find someone to share your affections as well as your success. You are a "powerhouse" who can manifest what you dream, enjoy what you earn, and discover the symmetry necessary to maintain the stability you require.

Mars in the Second House

(The Moneymaker)

Money, possessions and things you personally value will always be important to you. The danger is that egoistic Mars can be obsessive and the acquisition of money may represent your only achievement. While money is power, your life-values are a different kind of wealth. At some time, you will need a partner to manage your assets. It is only by sharing what you have earned OR learned that you receive full benefit of what you have achieved.

Jupiter in Libra

(The Goddess)

Use your fairy gifts of beauty, charm, and grace wisely. Your artistic talents may bring you a prominent place in the public eye. Partners are all-important. You extend yourself to assure that you are worthy of them. You may fulfill your dearest wish that the world will be a happier place and its citizens find contentment because you have walked among them.

Jupiter in the Eighth House

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

(The Negotiator)

Because you have an understanding of how the world views you and act accordingly, you have numerous chances for beneficial growth. People respect your opinion, trust your judgment, and will offer the financial or spiritual support you need. You welcome self-improvement, so accept change with the grace and ease it often takes to be truly successful.

Saturn in Sagittarius

(The Persuader)

You have the ability to influence others to join a crusade; as long as you adhere to your high principles, they will admire and probably follow you without question. However, you must be prepared to encounter those who disagree with your beliefs and oppose you. Carefully guard your words and actions because they can be held against you. The flames you ignite may become a holocaust out of your control.

Saturn in the Ninth House

(The Thinker)

You probably have the self-confidence usually born of long experience, no matter your age. Your powers of concentration enable you to absorb the essentials of life in great chunks. A career in law may satisfy your sense of justice. However, inherent knowledge may preclude the experience to utilize it. If your viewpoint seems narrow, look for ways to augment it. Like the Bluebird, you may find them waiting in your own back yard.

Uranus in Leo

(The Trend-setter)

You are first to volunteer, to explore, to introduce, to accept and to BE first in everything. You enjoy standing in the limelight as someone creatively innovative. But, you will not be content to perform; you are driven to take your place in an executive position that will distinguish you from your peers. You attract off-beat people and situations. Be sure to know who you are inviting into your life to avoid the unhappy pitfalls of impulsively-formed alliances.

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

Uranus in the Sixth House

(The Job-hopper)

You may waste time jumping from job to job as you search for one compatible with your personality. You resent subjugation by conditions or the will of others. If you "make do" for the sake of a paycheck, nervous conditions may result because of repressed energy. You will be happiest with work that allows you flexibility and an opportunity to do things your way. If that is impossible, at least try to "get away from it all" when away from your work environment.

Neptune in Scorpio

(The Initiator)

You take great delight in other people's secrets and may use them to advantage. If you have information that needs disclosure for the benefit of others, you may expose it in a subtle, but effective way. You may also use your knowledge to promote a principle or public figures while working behind the scenes. A leaning towards self-indulgence needs careful monitoring so that your strength is not used in abusive ways, but as a benefactor who prefers to remain anonymous.

Neptune in the Eighth House

(The Alchemist)

Your curiosity about the "unknown" and your keen intuition can lead you to investigate your own psychic abilities or become involved in one of the occult sciences, such as astrology. Your aim is to create better than what exists, so you may use your discoveries to benefit mankind. However, if your studies need extensive funding, try to finance yourself without borrowing and incurring debts you would have difficulty in repaying.

Pluto in Virgo

(The Restorers)

You have a rare opportunity of renovating the world in carefully-structured channels when the environment seems at its lowest ebb. Drugs, disease, addictions and crime will no longer be tolerated. You will have a major part in seeing that justice is done.

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

Law-makers, and those who execute the law will be among your peers, as well as some who are willing to educate those who truly desire self-improvement as their contribution to elevate mankind.

Pluto in the Sixth House

(The Alarmist)

By developing a practical fitness regime early, you may allay your fears that your health will undermine your plans for the future. Resist impulses to follow fads that promise much and deliver little. Also, avoid the tension of seeing yourself at your job in the extreme, as either threatened or indispensable. Otherwise, you may work unnecessarily hard to prevent losing what you have gained. Moderation in all things should insure you a long and productive life.

Sagittarius Midheaven

You would be happiest in a career which allows you to enthusiastically inspire others. You easily develop expertise which you visibly display to a large audience. You would make a good consultant, motivator, propagandist, publicist, missionary, and spreader of the word. Always in motion, you want to continually evolve in your career. Your up-beat focus is on the future, not the past. Those who are down, you cheer with your optimism. You can be an outspoken crusader for justice and for the humane treatment of people, children, and animals.

You excel at work that calls for skill in human relationships, as you are affable and congenial in your personal contacts. In your job there should be considerable freedom in what you do and how you are allowed to do it. You would enjoy travelling to or at least communicating with varied locations. You have an egalitarian, open-minded approach to people from various backgrounds. You can successfully handle a variety of duties. The potential drawbacks of this placement are scattered energies, lack of discipline, impulsiveness, and natural outspokenness turned to arguing for its own sake. Your energies are best organized when guided by a goal or vision.

Occupations consistent with your changeable, active style of work include traveler, teacher, philosopher, outdoors occupation, hunter, athlete, publisher, advertiser, publicist, scholar, artist, conductor, businessperson, government official, lawyer, judge, or consultant. For the most personal career guide, also consider the nature of any planets which fall in the 10th house or conjoin the Midheaven, the sign and house placements of Jupiter, ruler of the Midheaven, and any aspects which other planets make to the Midheaven.

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

North Node in Libra

(The Selfless)

You will not understand why others are promoted while you are passed by. You must change an attitude that the world revolves around you. Jealousy or resentment depletes your strength which should be used, not for your purposes alone, but to do for others what they cannot do. You will acquire the stature you long for by balancing your needs with others.

North Node in the Eighth House

(The Driver)

You may try to CONTROL rather than to guide or manage. You take setbacks as much to heart as triumphs. Your obsessive passions have another side to them. Using unselfishness and tolerance instead of jealousy and greed can unravel the tangles of your life so that the yarn is again clean, straight and ready for a new and more delicate weaving.

Chiron in Aquarius

Chiron is a minor planet that orbits in between Saturn and Uranus. In the astrology chart, Chiron serves as a bridge between normal consciousness and higher consciousness. Chiron can bring limitations, but it is also connected with finding ways to overcome limitations, to heal and to grow. Chiron spends an average of four years in any one sign, so everyone born in the same years will have the same sign placement. Chiron's sign placement is most likely to influence your life if Chiron has many aspects or is near one of the four angles in your chart.

You like to shake people up. When Chiron is strong in Aquarius, you are very independent and you think for yourself. You enjoy sitting around telling jokes, having a good time. This does not mean that you are not serious about the human rights issues that you care about, but you are not the stuffy, conservative type. You have a dynamic personality and people never know what you are going to do or say next. In fact, staying fresh and relevant is one of the secrets to your success. Aquarius is known for finding what is new and sharing it with the people who need to know about it. You get around like the busy bee, sustaining your friendships and making new connections. If you learn of a new fad that makes sense to you, such as vegetarianism, you will adopt it. U.S. Senator J. William Fulbright had a very strong Chiron in Aquarius, and in 1946 he sponsored an act which provides funds for an annual educational exchange program

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

between the US and 155 other countries, exchanging students, scholars, teachers, professionals, scientists and artists.

Chiron in the Twelfth House

You are brilliant as a servant of the people. Not only do you have a big, caring heart, but you are on the forefront of what is new. This placement challenges you to be selfless. You are most likely to grow through confronting painful limitations and problems. This can include injuries, ill health, incarceration, and prejudice. There is a danger of trying to escape through alcohol or drugs. If you encounter the suffering of people less fortunate than you, your reaction to their plight could be to volunteer your services.

Planets in Aspect

Saturn conjunct Midheaven (Strength: 9.07)

(The Award)

It may take you some time to get where you're going, but your hard work and perseverance will pay off. Lay your plans carefully. Achievement of your goals has nothing to do with "luck." Do not alienate yourself from those who care for you and are willing to follow your lead. You need their support. You tend to be inflexible, but be prepared to restructure your thinking. As a realist, you should allow enough margin for error to absorb the revisions that assure your success.

Saturn sextile Chiron (Strength: 7.85)

You have a good capacity for endurance. You find it easy to be frugal and self-disciplined. You stay youthful looking. Your philosophy favours self-sufficiency and hard work and is against self-indulgence, weakness, and dependency. You could turn this philosophy into a cult with followers. An illness, injury, or setback could turn you to the activity that becomes your life's work. You are a doer, not a dreamer. You are cool and accurate under pressure. Employers like your performance, your work ethic, and how reliable you are.

Sun sesquiquadrate BlackMoon (Strength: 6.43)

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

This aspect tends to make you manic and hyper. Your mind works at high speed and you find it hard to relax. You may need a doctor's regular prescription in order to control hypertension which can damage your heart. Singer-dancer Michael Jackson had this aspect and we know that he had trouble falling asleep during the weeks when he was performing. You will feel much more in control of your life if you can avoid alternating between taking uppers, downers, caffeine, and alcohol. Stick to a regular schedule and your biological clock will do the rest. You do not lack for ambition and ability. You are always exploring and restlessly experimenting.

Venus trine Saturn (Strength: 5.84)

(The Stable)

You view relationships realistically so the bonds you form are sensible and of lasting quality. In business, you are able to stretch resources or make do with limited means. You realize the value of commitment in personal unions as an opportunity to build something substantial with a helpmate, but are not necessarily unromantic in your approach. If you remain single, you will provide for emotional support to keep your life in balance, which is one secret of your success.

Saturn trine BlackMoon (Strength: 5.72)

You could be known for your urbane, emphatic leadership. Intellectually you are powerful with keen political instincts. You can be a consummate negotiator -- well-organised, fair and attentive to detail. You tend to be cautious and like to be the one in control. You have the mental ability to improvise on the spot. You can be known for flaunting convention and authority. You are passionate, but you express it in a civilised and elegant way. You could succeed as an actor with a non-traditional look. You are cool, cerebral and idiosyncratic. You have real knowledge and could write informative books. You tend to conduct yourself like an aristocrat, such as dressing elegantly even when relaxing. You can have influential friends.

Midheaven sextile Chiron (Strength: 4.56)

This very constructive aspect helps you to put in the work that is needed in order to have a successful career. It gives you sustained focus. You have a talent that lets you see the future and break new ground, possibly employing new technologies. Your work has a way of becoming part of something that is bigger than yourself.

Moon square Saturn (Strength: 4.31)

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

(The Lonely)

You may be depressed because you feel isolated and take the blame for your plight, but not know how to solve the problem. "Burying" yourself in work or other distractions is not going to satisfy you. Relationships often mean chancing rejection, but if you hesitate to brave a possible loss of pride, you will also deny an opportunity for fulfillment. By repressing feelings, you may find that you are denying expressions which can then emerge in a destructive way.

Midheaven trine BlackMoon (Strength: 4.31)

This aspect increases your level of maturity and responsibility. You should make a good husband and father. You can take responsibility for the larger world and become a political and social activist. You can be an excellent organiser. You will do what you can for human dignity, working for the rights of children and people who need support and protection. You are a hard worker who is known for humility, generosity and courtesy. You tend to be open and forthright about your shortcomings. These qualities could make you a popular politician. You tend to be fearless. You can make your mark in many fields, including the arts, but not without a struggle.

Neptune sextile Pluto (Strength: 4.16)

(The Self-aware)

It is important that you have the support of your family and friends. You are extremely sensitive and subject yourself to self-criticism that can be destructive and depressing. It may be that you need professional help to build your self-esteem. Later, you may transfer your intense feelings into knowledge you share with others. You may pursue a career in psychiatry or psychology, but will continue to investigate your own psyche for answers as to what "makes you tick."

Ascendant sesquiquadrate North Node (Strength: 4.02)

You are a charismatic man with great physical presence. You have a distinct style and can carve out a niche in society that makes you popular. You pay great attention to detail. You could switch from a traditional career to one that has a higher public profile.

Venus opposite Chiron (Strength: 3.77)

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

You will have an active love life, but it might come with unwanted challenges and occurrences that end up elevating your consciousness. There is a possibility of some trauma connected with your parents' marriage during your childhood. Your popularity will have its ups and downs. You may be more comfortable with a low-key, private life. You are attracted to fine things, elegance, and luxury. You are personally optimistic. Your personal optimism gives you an advantage throughout your life. This aspect helps you to stay physically slender and active. Social or human interest issues could have an important influence on the work that you do.

Sun conjunct Pluto (Strength: 3.58)

(The Delver)

You will leave no stone unturned to understand the source of energies that press you to continually transform your life into "something better." Facets of yourself that need revision will undergo radical changes as you eliminate anything impeding your progress. Keep your eye "single" as to how you may improve in spite of others who try to force you to their ways. Believe in yourself. Little can deter you, once you find a practical way to express your power.

Mercury sextile North Node (Strength: 3.42)

Research or writing on a variety of topics should come easily to you. You could also excel at publicity. This aspect can help keep you youthful looking, especially if you avoid cigarettes. This aspect can correspond with having several children.

Moon sesquiquadrate Jupiter (Strength: 3.26)

This aspect gives you a voracious appetite for learning. It seems to be a successful aspect for a musician. You could be known for your rather elaborate creations. You set high goals. No one will ever describe you or your work as small potatoes. You could master a large vocabulary, using it to become a fluent conversationalist, speaker, or writer. You would be a good spokesman because few can match the coherence and economy with which you are able to express ideas. You can combine words in unexpected ways. You tend to be optimistic and ebullient. A drawback of waxing so enthusiastically about so many ideas, policies, and projects is that inevitably you will precipitously drop one interest in order to move on to the next. This can disappoint those whom you have drawn into your orbit. You might be happiest in a creative field that allows you to move on from one avant-garde project to another. You have high standards and will not put out anything shabby. You put in the time to craft your creations well.

Mars square Chiron (Strength: 3.23)

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

You are attracted to explore issues of current political relevance. You do not shrink from raising awareness about controversial issues. You have an outspoken style. You are someone who could challenge complacent assumptions. You are an active person who likes sports. You are comfortable around new technology. At an early age you developed and became interested in the opposite sex.

Moon inconjunct Uranus (Strength: 3.20)

(The Inconsistent)

You may be considered a "show off" or just do things to get attention, and be disruptive, rather than amusing. Rather than follow a proven path, you often opt for a creative way "around duties." You can contribute innovative ideas but are not good at following through, as you change your mind constantly about your own inventions. Withhold your theories until you are schooled in fundamentals. Otherwise, instead of being successful, you will finish as a "wannabe."

Saturn semi-square Neptune (Strength: 2.86)

This aspect lets you join disciplined control with intuitive imagination and style. You look for a way to distinguish yourself, and could find it in a non-traditional activity that you love to do, that the world initially considers to be a trifle. You could have talent for singing. You can use your feeling, spirit, and self-control to become a popular leader. You reach out to all, without regard to class, race, or sexual orientation. You do tend to insist on perfection. Your focus can be on precise, detailed execution. Perseverance is one of the keys to your success. You can consciously refine and elaborate the style and the image that you project. Life may give you some experiences that persuade you not to be materialistic, not to take life for granted.

Mercury square Mars (Strength: 2.66)

(The Challenger)

Life is apt to be your private arena, as if you had something to prove every day of your life and are determined that others take notice. You may display an irritability that puts others off or you may have to contend with those who make "getting your goat" a career. In either case, a change of attitude will work wonders. If you can't manage your temper, try channeling it into some physical form to vent your pique and calm down until you are in control of your feelings.

South Node conjunct BlackMoon (Strength: 2.60)

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

This aspect tends to make you expressive, like an artist. You are good at channelling insights and feelings through various media. In some way you touch the public nerve or capture the public imagination.

Moon conjunct Ascendant (Strength: 2.50)

(The Subterfuge)

You may disguise your emotionally-sensitive nature in the extreme, either as bravado or in a submissive attitude. The truth is that it is difficult for you to let others in on your feelings or talk about your problems with those who might understand. An emphasis on possessions can weaken your intuitive powers or the ethereal nature which makes you mediumistic. By observing the needs of others, you may be able to communicate openly and relieve your burdened spirit.

Venus conjunct Uranus (Strength: 2.42)

(The Unsteady)

Many of your relationships are formed impulsively and are not of long duration. You thrive on excitement and change partners easily. Your friendships depend on the exhilaration of a new experience and a certain flexibility that allows you to be creative and innovative. If the time comes when you desire stability, you must make a genuine effort to fasten on the rewards of commitment and value them above your desire for variety and the independence you have demanded and enjoyed.

Moon inconjunct Venus (Strength: 2.26)

(The Defiler)

Your daydreams can get you into trouble, if you fail to separate them from reality. You may be inconsistent in your plans, tend to be fickle and settle for "whatever feels good." Your self-indulgence can lead to a variety of health problems due to promiscuity in sex or "escaping" into addictive substances. Moderation in all things will help to balance your impulsive nature. At least, try to look and listen before taking a leap that may well spell your downfall.

Chiron sextile BlackMoon (Strength: 2.09)

An architect with this aspect is known for his elegant and avant-garde style and for works which are personal, vigorous and original. The same can be said of the historians, scientists, businessmen, lawyers, mystics, poets, actors, politicians, and investigative reporters who have this aspect. You are likely to be handsome, graceful and generous. You also can be courageous and direct. You can speak out even

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

when the ideas that you express are not popular. Growth and independence are important priorities. Both mentally and physically, you have speed and energy. A CEO with this aspect wrote that companies should maximise freedom and speed, and decision-making should not lie in the hands of the few. He also emphasises that individuals and small teams can have a massive impact on innovation. Men with this aspect can become bored very quickly. You could enjoy painting and become increasingly interested in the arts, including music.

Jupiter conjunct North Node (Strength: 2.07)

You tend to make the most of whatever opportunity is given to you. You can learn on your own. Failure just makes you work harder. You could have a mystical or religious side to your nature. Your prolific creativity comes largely from a desire to understand yourself. You are always exploring and experiencing. You have the ability to stay relevant by changing with the times. You seek through your experiences to refine yourself and your understanding. It is part of your success that you find ways to work within the system, as opposed to outside the system. You are a fundamentally sane person and leader in whom the public has confidence.

Jupiter conjunct Neptune (Strength: 1.96)

(The Utopian)

Your compassion for others inspires you to try to perfect the world for all to enjoy. Idealism can tempt you to take risks that may not pay off, or you may not have the means for social reform. But, given encouragement to change, man can achieve what it is impossible for others to do for him. Help others to their feet with dignity. If your resources extend no farther than your arms can reach, you may still exemplify a prayer: "Let there be peace, and let it begin with me."

Venus trine BlackMoon (Strength: 1.86)

This aspect tends to make you personable and good company. You will try to use your considerable charm and powers of persuasion to solve problems. You have the intelligence and awareness needed in order to rise within a company. Generally you work more for your own self-respect than you do for the good opinion of others. You can be creative and innovative. You could be competent as both a manager and a man of action. You tend to be fearless. You are not pretentious, but can relate to the common man. You are probably fond of children and can be generous. With your universal vision, you welcome everyone into the fold. You could work to introduce more beauty into the world. You can be vigorous into old age.

Sun sextile Neptune (Strength: 1.81)

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

(The Spiritualist)

Because your inherent beliefs tell you that mind and body are one, you will strive for perfect balance. Your low energy levels suit you for periods of meditation. As you turn inward, you may open mediumistic qualities which make you sensitive to the feelings of others and you will respond to their needs. Material blessings will never satisfy you. Follow inner urges that prompt you to reach for understanding born of your search for higher self in divine spirit.

Mercury trine BlackMoon (Strength: 1.81)

You probably have a creative way with words. You could also love drawing. There could be something distinctive about your voice. You could develop your wit when young as a way of defending yourself. You could become a witty storyteller or an imaginative poet. You could do voice work for film or radio. You could inappropriately decide to be too witty and creative in a situation that requires observing the protocols. However, you value freedom of thought and action. You are most happy when you are being original and creative. You could travel frequently, living a peripatetic existence. You find it invigorating to mix different cultures. You have enough self-confidence to admit when you have been wrong and to change your mind. You tend to be straightforward and direct. Your stamina should be good. You would make a good driver.

Moon sesquiquadrate Neptune (Strength: 1.64)

This aspect gives you the ability to break down the barriers between people. Your ability to form social connections allows you to change the system from the inside, as opposed to beating on the doors from the outside. You love reading and can go on adventures in your mind, but you share your ideas and argue your point of view with others. You seem to have a talent for enlisting the support of powerful or wealthy patrons and allies. Opportunistic and hyperactive, you are good at building connections and networks, both with ideas and with acquaintances. Drawing upon a versatile creative imagination, you can develop a distinctive style and approach. You could become involved in controversy with peers whom you consider to have old-fashioned views.

Neptune semi-square Midheaven (Strength: 1.06)

With this aspect, you can apply the skills of Neptune towards your career. These can include unconscious performance, intuition, imagination, artistic creativity, originality of style, and evasiveness. The power of letting the unconscious be in control can be seen in athletes who never miss. You can be a successful writer who gets research material via interviews instead of via the public library, thereby adding the human connection to your writing. You add colour and interest with your attention to detail. You might

Ascendant semi-square BlackMoon (Strength: 0.11)

Balance of Elements and Modalities

Abundant Water

In your case, the heart rules the head. Your emotional drives are strong and you act primarily on the basis of your feelings. Whether your feelings are purely personal, interpersonal, or transpersonal is up to you, but generally you are a life-oriented person who feels keenly and who acts to support your family, friends, and community. You are happiest when you are in a caring relationship with a significant other. That person should be comfortable with the emotional closeness that you bring to relationships, while providing the structure or inspiration that you need. Some of your friends will not be as comfortable with emotional closeness as you are, and you will have to respect their boundaries. You have probably learned over the years how to keep your sensitive nature from being hurt. Don't permanently withdraw, but find the people with whom and the environment in which you can be yourself.

Because of your sensitivity, you easily pick up others' thoughts and feelings. You can anticipate others' needs before they have expressed them. You can usually rely on your intuition when it comes to forecasting the outcome of personal and career decisions. If you decide to use your psychic abilities for healing, learn to let go of the negative feelings that you process from others. Since you are so sensitive, find quiet moments for private introspection in which you can reconnect with what you feel instead of what others feel. You also find it revitalizing to be around large bodies of water.

You do have a need to stop and think things through before acting. Make the effort to communicate with others who may have a more objective viewpoint or who could see solutions that elude you. You can sometimes be criticized for acting from a purely personal perspective, which you could avoid by learning and respecting society's larger viewpoint. You can be very creative in finding paths to your personal goals. Keep the larger viewpoint in mind and later you will not have to try to rationalize to others why you chose those paths.

Abundant Fire

You are an active, future-oriented person who is not weighed down by past commitments. You take advantage of new opportunities better than most. Life for you can be a vibrant affair in which you passionately pursue causes, lovers, and experiences. You have the self-confidence to be a leader. Competitive and flamboyant, you have little patience for slow people or unexciting work. When an activity interests you, you can be very generous with your time, energy, and money. Find outlets for your gifts of creativity and intuition.

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

Watch out for a tendency to exaggerate or to be insensitive to others' feelings. More cautious types may envy and resent your free spirit and competitive nature. You get bored easily and may depend on others to finish the projects that you start. When your warmth is guided by love, wisdom, and positive goals you have the ability to heal and inspire others, but when you focus on your self or lack direction, your short-lived passions can affect others in destructive ways.

Abundant Earth

You are in touch with the real world. More than others, you know where the rubber meets the road; persistent study has shown you how to make things happen in a practical sort of way. Your nature is well-suited to the adult world of responsibilities, which you master at a young age. Not impulsive with your resources, you would only start a business after careful study, but you would manage it well. You enjoy the satisfaction that comes not just from starting projects, but from finishing them. Your steady, organized approach is actually more productive in the long-run than is that of the quick, flashy types. You know how to establish a pace and keep it.

Do not let your awareness of the material world make you unappreciative of the spiritual plane that underpins our life here -- to which others may be more sensitive than you. Practicality is fine, but try to understand that dreams, feelings, and enthusiasms are also important and should not be squelched. Others might surprise you with what their optimistic risk-taking is able to achieve. You can be so cautious and reserved that some people find you conservative and dull. If you yourself become bored or depressed, admit that security isn't everything and try to be more spontaneous. Open up to the new and follow your bliss (in a careful sort of way).

Lack of Air

Expressing yourself does not come easily to you. You distrust people who are fast, smooth talkers. It may be easier for you to express yourself nonverbally or in writing than it is through speaking. If you also lack planets in the houses of Relationships, you will find the normal avenues of communication and social learning blocked. Your thinking will be personal instead of detached or rational. With the mind's normal communication channels blocked, you learn primarily from experience. Lacking in the ability to view yourself objectively, you gain self-understanding primarily through feedback from others.

Try to see life less personally, in a more objective way. Take classes and never stop educating yourself.

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

A lack of planets in Air signs can be offset by an Air sign ascendant or by abundant planets in the houses of Relationships.

Abundant Substance

With abundant planets in the houses of substance, you know your place in the material world. You know how to extract value and give value via your business, work, and career activities. The rules of the world come easily to you. Others admire and depend on your hard work and practical nature. If you get depressed, make time for recreation and family.

Lack of Relationships

Relating to other people probably plays a minor role in your life. You could remain unmarried, be a loner, or even be an orphan. Your thinking is probably subjective or personal, without the objectivity that comes from having communicated with many people. Let others teach you by showing you and if they give you any feedback on your thinking, see if you can learn from it.

A lack of planets in the houses of Relationships can be offset by abundant planets in Air signs.

Lack of Endings

You live on the surface of things, afraid to look within at what you really feel and want. Perhaps your position is too precarious or the obligations too great to allow yourself this luxury. You feel forced to maintain your personal status quo. You come across to others as unfeeling. Because personal feelings do not distract you, you might make a good scientist, though be aware that the greatest scientists let intuitive feelings be their guide.

A lack of planets in the houses of Endings can be offset by abundant planets in Water signs.

Abundant Mutable

With an abundance of planets in Mutable signs, you adapt easily to changing circumstances. Mentally quick, you adapt like a chameleon to give each what they want, until you are on to the next friend or interest. Life offers a succession of roles to play. Skilled at diplomacy and compromise, you make a good negotiator and appear to

Natal Horoscope Chart Interpretation for Michael Jackson Concise Version

be everyone's friend. You actually are other-oriented, rather than self-oriented, and can be so busy meeting others' needs that you lack direction in your own life. Concentrate on finding friends of true worth and value. Be discriminating in your associations, in whom you choose to help. The endless flow from your mind, tongue, and hands will then work to return real value to you, which is what you deserve. You can probably only follow this advice just so far, though, because more than others the Universe sends you people in need, people for whom you are able to make a real difference. The assistance that you provide to the powerless may actually be remembered long after your facile mental output is forgotten. Your activities can also bring an end to institutions that have outlived their usefulness.

Lack of Cardinal

With a lack of planets in Cardinal signs, you may have trouble starting things. You may be timid about developing and carrying out plans. You would prefer to let others break the first ground of a new venture, so that you can pitch in and help once the outlines of the venture are clear. You probably lack confidence in your mastery of the real world and survival in it. You may substitute a rich inner life for your lack of action in the outer world. In its highest form, you may be unusually creative or spiritually committed. Ideas filter up as you focus on 'being' instead of 'doing'. Watch out for the lower manifestations, which are delegating tasks to others and pitying yourself over the lot that befalls you in life as a result of your lack of direction and initiative. Your different perspective on life gives you valuable insights that let you make real contributions wherever you are.

A lack of planets in the Cardinal signs can be offset by a Cardinal sign ascendant or by abundant planets in the Angular houses.

Abundant Cadent

An abundance of planets in the cadent houses helps to make you versatile and adaptable. You are flexible in your plans, adapting easily to changes or to the people whom you meet. You may travel a lot or move frequently. You are a good listener and communicator. You will use your mind a lot or frequently spend time alone during your life.

Lack of Angular

A lack of planets in the angular houses indicates little desire or drive for recognition. You adapt to the world instead of trying to change it or make your mark upon it. You

concentrate on enjoying life and find ways to help others that do not call attention to yourself.

A lack of planets in the Angular houses can be offset by abundant planets in the Cardinal signs.
