Here & Now Transits Reading for David Letterman Progressed Chart to 24-Aug-17 for 24-Aug-2017 12:19:32 PM

Introduction

These are the transiting aspects that are within orb of your progressed chart at the above time.

The following pages describe the transits that you will be experiencing here and now and over the coming period.

These pages can give insight into the challenges that you will encounter and the underlying lessons that they offer you.

There are literally hundreds of transits occurring for you each year, so this report focuses on those that are surrounding you now, including those which occur more infrequently, and therefore present the greatest challenges now and over the coming weeks.

The readings stress that you are the ultimate decider of your fate.

Astrology can give you a "weather report" on the energies influencing you, but it is up to you to decide how you will react. Some people can benefit greatly under normally difficult transits because they eagerly meet the challenge head on. Others will not benefit from the most positive transits because they did not pursue opportunities presented to them.

The longer interpretations of the transiting aspects are likely to be felt over weeks and some over months, whereas the shorter interpretations, over the next few days.

For a full transits report, order a monthly or quarterly day by day transits reading.

Transiting Aspects

Mars sextile Uranus: 0° 14' deg. orb, Applying

Innovative actions enhance the dull routine. Independence and freedom are strong attractions. Stimulating associations offer excitement.

Pluto oppose Ascendant: 1° 01' deg. orb, Separating

During this once-in-a-lifetime transit, you are likely to encounter major power struggles in your closest personal relationships. If one or both of you has been suppressing your feelings, now is the time that pent-up anger and frustration will surface. The force of these emotions may be surprising, and you will have no choice but to deal with them

now. Solid relationships will survive this transit, although the balance of power between you may be altered.

Your encounters with others will be much more powerful, for you are not interested in superficial contacts now. It is possible you'll attract a new friend (or maybe lover) who will have a powerful influence on you whose perspective can help you transform your life. This is also a good time to participate in psychotherapy or other consciousness-raising activities. You may also seek guidance through meditation, astrology or other metaphysical sciences.

Many of your close relationships may end now, since they are unable to adjust to the new you who is emerging at this time. If they are no longer contributing to your growth, it's best that you let them go. Even if you try to hold on to people because of sentimental attachment, they are likely to pass from your life anyway. It's better to co-operate in the changes taking place around (and within) you at this time.

Moon square Sun: 1° 04' deg. orb, Separating

The ego and emotions aren't co-operating. A minor test of direction is possible. Home and career clash.

Mars square Mars: 1° 12' deg. orb, Applying

The ego may run roughshod over any opposition. Acting on impulse generates frustrating results. Irritability breeds confrontation.

Saturn oppose Uranus: 1° 14' deg. orb, Separating

With oppositions to Uranus the key phrase is "Anything Goes!" It is difficult to predict the exact effects of such transits because so much depends on the need for change in your life and your receptivity to it. If the structures you have built for yourself are too rigid and therefore inappropriate for your growth. Saturn/Uranus combinations are well known for tearing down structures which have become outdated and therefore are no longer useful.

Your obligations to the people in your life may become overbearing and oppressive. If you feel the need to rebel against this pressure and then suppress it, you are likely to develop physical problems, especially concerning the heart and nervous system. All relationships with others--including your mate, family members, Co-workers or friends--will be tested now. Those which are most valid and offer you the best opportunity for growth will survive. Many may fall by the wayside.

You will strongly resist the efforts of others who are trying to run your life. You may feel like rebelling against this oppression by throwing up your hands and walking away. This could apply to your job as well as to your relationships. Avoid impulsive actions; instead, sit and think about it before flying off the handle. Quite often changes merely need to be made, not the whole idea scrapped. Be patient with those around you now--they are trying to be patient with you.

The best use of this transit is to rise to the challenge it presents--to balance Uranus' need for change and freedom with Saturn's need for order and discipline. Just be sure to think before you act, especially since this transit is associated with financial and legal problems.

Uranus sextile Sun: 1° 16' deg. orb, Separating

This transit occurs only twice in each 84-year cycle of Uranus and is certainly a time to expect the unexpected--a time of increased opportunities and just plain old good luck. Events that take place now will open up your mind to consider new possibilities. If you are willing to take the risk and make some changes, you will develop a totally new perspective and undergo great growth.

If you have felt frustrated that you are not expressing your true self in the world, such as in your job, now is the time that new, more exciting opportunities will present themselves. You will be attracted to and pursue futuristic projects, for you are able to see their value and viability. Now's the time to invest in that invention you've been creating in the garage. You may take up study of a metaphysical science, such as astrology. At the least, your intuition will be more accurate than usual.

You may make new friends or take on new business associates now, and this is an excellent time to do so. You could also meet a new love interest who is wildly different from your previous partners. The relationships that you form now will serve you well in the future. Older relationships may also become more exciting under this transit.

Keep your eyes and ears open for new opportunities in your career. Now is an excellent time for advancement, and they may appear suddenly and without warning. If you seem to be "in the right place at the right time" during this transit, remember to take some credit for your more fortunate turn of events --you deserve it.

Pluto sextile Jupiter: 1° 23' deg. orb, Separating

This transit will happen only once in your lifetime (maybe twice if it occurs at a very early age). This is a very fortunate transit for all business dealings and professional matters.

Working with others in groups toward a common goal would benefit you greatly now. In general it is an excellent time to apply yourself to your idealistic goals in life and work hard to achieve them. You may encounter opportunities to get ahead in your chosen career and to achieve the success you've worked so hard for.

You feel very optimistic now and genuinely want to change the world. More than at any other time in your life you are aware of the universe as a whole and your role in it. Flaws in our sociological structure are very apparent to you now, and you want to do something--anything that will make a difference to the greater whole of mankind.

This is an excellent time to study such subjects as science, religion, philosophy, law or medicine. You are especially attracted to healing now, although you recognise that humans and society need healing in many ways, not just physically. At this time you will develop some deep insights into the meaning of life, and you will be able to help others understand as well. This is an excellent time to study or practice yoga, meditation and the metaphysical or mystical arts. You may even have psychic or paranormal experiences.

If you have any unfinished business with the law or other authority figures, now is an excellent time to settle it. The outcome is sure to be a good one for you. Also, this is a good time to clear up problems at work--and even to ask for a raise if you've been wanting one. This is also a good time to obtain grants or loans for your own business.

Sun sextile Sun: 1° 30' deg. orb, Separating

Look for opportunities to mingle with others for mutual benefit. Somewhat lucky for speculation or investments.

Jupiter trine Uranus: 1° 48' deg. orb, Applying

This transit is known for being lucky, and always brings something unexpected. You feel like doing something out-of-the-ordinary at this time and want to explore new perspectives on life. You may feel the urge to travel and may have the sudden opportunity to do so during this time.

You may have new opportunities presented to you, seemingly from out of nowhere, such as money from the blue, a move to a better residence, a promotion, business opportunity, or a chance meeting with someone who contributes to your success. You may make exciting new friends or join a scientific, religious, occult, cultural or educational organisation which provides the support you need to achieve your goals. Whatever it is, it will require immediate action on your part and it will probably be a wild

departure from your norm. You won't have time to sit around and consider the outcome.

Your mind is particularly sharp and inventive at this time. You may come up with innovative ideas that can be put into practice at a later time. Spiritual and metaphysical subjects are of great interest to you now, and you strive to incorporate these principles into your belief system and everyday life. Your intuitive and psychic abilities are heightened; it is a good time to practice astrology. Although this transit is known for its luck in gambling, this will not help you if you are already "unlucky" in nature. Be cautious if you gamble and don't spend more than you have.

Chiron square Sun: 1° 55' deg. orb, Separating

This transit will occur only twice in each 50-year cycle of Chiron. During this time, you're likely to have a deflated ego and even feel like you've been demoted. Although you like the idea of being on centre stage, you're more sensitive than usual to criticism, and you may encounter more than your share now. With a little effort, you'll learn not to take things so personally. You may grudgingly find yourself in a position to promote the talents of someone else and to help them achieve the fame they (and you) desire. Be careful not to view your mentors or role models as super-heroes. No matter how impressive their accomplishments, they are still only human. It's also possible that you'll become overly demanding, especially if you've previously hesitated to fight for what you want in life.

You may attract wounded friends now (especially men) who help you clearly recognise patterns you've repeated in your relationships that have caused a great deal of suffering. This new perspective may be brought about by painful experiences involving major male figures in your life which leave you feeling insecure or even helpless. If this transit brings unpleasant memories of early childhood wounds, be reassured that this is the first step toward a permanent healing. Be willing to forgive others, and to admit you're wrong if need be. Although it may seem that everyone is against you, in reality you are probably feeling more argumentative than usual. If strong feelings surface now, don't try to suppress them because of your wounded pride. If you do, the pent-up tension could manifest in your life as illness or crisis situations. Try having frequent shoulder massages during this time to ease stress.

You are attracted to alternative forms of health care now, and you may even develop healing talents yourself. If you become a healer, you will pursue your new vocation with great intensity and purpose, as though it were your life's destiny. In a way it is, because as you learn to help others, you will also heal yourself. However, this process is not likely to be an easy one. Look within for answers to life's problems rather than blindly following the advice of others. You'll attract many advisors who are anxious to guide you, but you must also develop your own judgement as to what's best for you.
