Natal Horoscope Chart Interpretation for Justin Bieber

Introduction

The following pages contain a brief evaluation of key elements of your birth chart, although it is by no means complete. Astrology can reveal many things about a person's life and personality, and you could study your chart for a lifetime without knowing the answers to all of your questions. The descriptions that follow will give you a "thumbnail" introduction to yourself through astrology.

In interpreting your chart, this report considers the sign of the planets and the north node in your chart, as well as their house placements. It also describes the sign of the Ascendant and the strongest aspects between the planets.

You may note that some of the following descriptions appear to contradict each other--and indeed we are all walking bundles of contradiction. If you examine yourself carefully, you will probably realize that you do in fact possess the qualities of both conflicting descriptions. Even though some parts of the reading may seem to clash, you will see that certain themes are repeated throughout the following pages. These are the themes that will become major issues in your life.

The readings stress that you are the one who ultimately decides your fate. The stars may indicate the hand you were dealt at birth, but it is up to you to play that hand well enough to achieve your goals. Also, bear in mind that every "bad" aspect of a chart also has a "good" side. How it is expressed is really up to you. We tend to work at expressing ourselves more positively most of the time and only lapse into the negative behavior described when depressed, angry or scared. Or it is possible that some aspects may better describe your personality or behavior earlier in life. They may seem alien now because you have already worked through them.

A "Strength" number precedes each aspect description; this number takes into account how exact the aspect is, whether the aspect is a major or minor one, and whether one of the planets in the aspect is close to one of the four chart angles. The higher the Strength, the more you are likely to feel the aspect and to act it out in your life.

Natal Horoscope Chart Interpretation for Justin Bieber

Planets in Signs and Houses

Scorpio Ascendant

You have more than your share of self-determination and self-reliance and therefore are not easily swayed by the arguments of others but prefer to choose your own path in life. Of course, this can manifest in several ways. Either you can live a practical and spiritual life, rising above petty power games, or you can resort to manipulation of others with the goal of total self-satisfaction without regard for the needs of others.

Since you want to be your own boss, you do not appreciate others meddling in your affairs. You do not like to have your motives questioned and can become quite forceful in making this known to others. You enjoy helping others and teaching them to help themselves, but once you are crossed you can become vengeful and antagonistic. At times like this you develop a biting sarcasm and can even be provoked to physical violence.

Your strong sense of self-respect causes others to admire you, and they often come to you for advice. You are an intensely loyal friend or lover, and you expect the same from those around you. Others know you will keep their secrets and feel they can trust your good counsel.

You exercise such strong self-control that at times it may seem that nothing bothers you. The worst of insults seem to roll off you leaving no mark, and sweet compliments will not influence your decision at all. You are a master of the "poker face," and it is truly difficult if not impossible to tell what is going on with you under the surface. People generally fall into one of two categories with you: close friends or bitter enemies. You never forget a kindness or a slight, and you will not rest until you have repaid either in kind.

Physically, your weak areas are the reproductive organs, nose and throat. Varicose veins and nosebleeds are also common problems with this Ascendant. In order to preserve your health, be sure not to work too hard or to adopt a negative attitude toward life. This will certainly manifest as a physical ailment. You can be prone to obesity if

Natal Horoscope Chart Interpretation for Justin Bieber

you use food as a source of security. Your eyes have a piercing look that seems to penetrate into the very souls of others. It is possible that your eyebrows meet above the bridge of your nose and have an upward point. Your body tends to be more hairy than usual, and your mouth is full and sensual.

Sun in Pisces

Pisces are well known for being sensitive, emotional and artistic. Their mood changes like a chameleon to blend with those around them. For this reason, it is imperative that their associates and immediate environment be of a positive nature. Pisces is the sign most likely to cry at a sad movie. Because you are so sensitive and compassionate, you tend to take on the problems of others. You do all you can to avoid hurting others and often help them if you can.

At times it may be difficult for you to separate fact from fantasy. You live in a semi-dream world, and you will retreat into your illusory world whenever the pressures of real life become unbearable. You are prone to daydreaming (especially when you were a child). Pisces natives are usually very shy, and this limits your ability to make friends easily. Learn to be less concerned about what others think of you and concentrate on improving your own self-image.

Because of your genuine desire to help others, you are an easy victim for those who would abuse your kindness. Be careful to surround yourself with people you can trust. If someone disappoints you, you become bitter and hurt--and your tongue can develop sharpness and acidity. Don't let your mission of serving others turn into a mission of martyrdom. There are always people who will take advantage of you if you let them. Instead of being passive, learn to stand up for yourself more often.

Pisces is also the sign of the mystic. They are either deeply religious (though not necessarily through an orthodox church) or have highly developed intuitive and psychic abilities. Feelings of greed and competition are foreign to Pisces natives, who find such energy irritating to their sensitive natures. As a result, they are usually not found in the dog-eat-dog corporate world--unless other factors in their charts give them this competitive edge.

Natal Horoscope Chart Interpretation for Justin Bieber

In affairs of the heart, Pisces natives are devoted, tender, gentle and affectionate. Since Pisces natives have so much love to give, others often misunderstand their motives and consider them to be "coming on" to them. The truth is that the Pisces native is sympathetic and understanding with all others--not just with the inner circle of those whom they love. Pisces is known for being evasive with others, but rarely purposefully deceptive. The key word here is "purposefully". Often they deceive themselves and therefore consider themselves to be quite truthful when others see them as deceptive.

Sun in the Third House

This house placement of the Sun indicates that you have qualities normally associated with the sign Gemini. You have a very quick mind, an active curiosity, and a tendency to become bored unless you are constantly stimulated by new information. You love to talk and enjoy a good debate with a worthy opponent. Travel is a very mind-expanding experience for you, and you will benefit greatly from visiting or living in foreign lands.

Communication is very important to you, and you may find that your chosen occupation will include writing, public speaking or other forms of communication. You have a strong appreciation for education and seek to develop your intellectual abilities to their fullest. You enjoy picking up new information through reading or through your daily interactions with others. Your relationship with your siblings and childhood friends will play an important role in your life.

In your love life, you seek a partner who can provide the excitement and constant change you need in order to feel alive. You would not be happy with a mate who wants to settle into a familiar rut and stay there. You do not need to be in the constant company of those whom you love and are able to carry on long-distance relationships by phone or mail. You do not have to be with a person to communicate your love.

Moon in Libra

Natal Horoscope Chart Interpretation for Justin Bieber

Persons with Moon in Libra are known for their charm and social grace, and they have a natural talent for winning friends and influencing people. They use their good manners, kindness, and considerate nature to charm others and to make the right impression.

They present an image of total balance and harmony, but actually they perpetually struggle to achieve this impossible state. They can never achieve it precisely because they can see all sides of the picture. The scale cannot balance if it is constantly dipping from side to side. As far as physical weaknesses, the main problem areas for natives of this Moon placement are the kidneys and allergies.

Moon in Libra brings with it an appreciation for the finer things in life. Partly because of this, natives with this Moon placement do well in such professions as law, architecture, politics, the arts, and being a homemaker. Men with this placement are attracted to very gracious and feminine women. Females with this placement usually find a good marriage in their life, although it may not be the first one.

Others often come to you for advice, and you do have a knack for helping to solve their problems. Again, this is because you can see both sides of a situation clearly. You also can apply the advice you give others to your own life with little difficulty, thereby learning from their mistakes so that you need not repeat them yourself.

You have a talent for rearranging your environment to make it more pleasant. Just be sure your roommate or lover doesn't mind you rearranging his or her world also. You find life to be continually stimulating and exciting and should find a partner who has the same outlook.

Moon in the Eleventh House

Your friends mean a lot to you, and you rely on them for support and encouragement. It is important that your friends be trustworthy, and you often become friends with your friends' friends, keeping to the circle that you feel comfortable with. Your closest friends are likely to be women, no matter which sex you are.

At times those around you may feel that you are being aloof and even cool. You are actually just being objective, and whether you are attentive or detached may depend largely on your mood. Try to be more consistent for your friends' sake, at least until they get to know and understand you.

Many of your attitudes and values were heavily influenced by your parents and other authority figures from your youth. As you grow and mature you must strive to adapt your belief system and your ideals to a new reality. Otherwise you will always be a child emotionally.

Natal Horoscope Chart Interpretation for Justin Bieber

You are most attracted to a lover who has class and is of fine breeding, and you will do all you can to assist your lover in the climb to the top. This may seem like a selfish motivation on your part, but in reality you do want the very best for those whom you love. You thrive on an active social life, so it is important that your partner not be selfish and allow you your emotional freedom.

Mercury in Aquarius

Mercury in the sign Aquarius has a reputation for being the sign of the genius, as many inventors and scientists have Mercury in this sign. You have a highly original and versatile mind, and you can put your ideas to work in a practical manner. It may be difficult for you to gain acceptance from your own generation for your ideas because with Mercury in Aquarius you are a futuristic thinker. In another 50 years, everyone else will catch up.

Although your friends are very special to you, it is important that you follow your own convictions no matter what others think. With your highly developed intuition, you also have the ability to see through the pretenses of others. You communicate your ideas very clearly so that others can easily understand even the most abstract concepts.

You have a well-balanced concept of human values and view life from the point of view of what is most helpful for the entire planet (or the Universe). You strive to remain detached and objective, so that your judgment can remain clear. This is a good idea, as long as your detachment does not become aloof coolness. You have a natural aptitude for science, both traditional and metaphysical. Since Aquarius rules astrology, Mercury in this sign indicates at least a curiosity about this subject.

Your friends will be your greatest source of mental stimulation, and you will choose friends from every walk of life. With your highly developed sense of intuition you may have psychic abilities, such as telepathy or premonitions. You have an excellent memory, and may be able to recall details of past lives with greater detail than others.

Mercury in the Third House

You have an intense curiosity and love to travel. You have a deep respect for education and enjoy communicating your ideas to others. With your versatile mind, you are open and receptive to change and new perspectives. Focus on one project at a time rather than scattering your energy, and you will have greater success.

Venus in Pisces

Natal Horoscope Chart Interpretation for Justin Bieber

You are highly emotional and like to be "tuned in" to your lover's needs. As a lover you are very gentle and caring, and you seek a lover who offers you the same treatment. With Venus in Pisces, you tend to be attracted to "stray puppies" -- people who need to be loved and saved from their sorry lot in life. Just be careful that you don't take on the problems of others to the point that they become your own. Other people need the chance to learn and grow through solving their own problems.

Since you tend to idealize your mate instead of seeing their bad qualities as well as their good, you set yourself up for disappointment in love by expecting your partner to be perfect. Once you commit yourself to a relationship, you become very dedicated. Just be careful that you do not allow your partner to mistreat you. There is no need for you to be a martyr to love.

Sensitivity and compassion are qualities that you appreciate in a lover. You especially would like to have a lover who can intuit your needs psychically so that you don't even have to articulate them. But be realistic--your partner doesn't have a crystal ball. Be willing to communicate directly at least part of the time.

You may carry karmic baggage from other lives into this lifetime. This placement has produced many martyrs and sacrificial lambs. Your partner should be someone whom you feel you can truly trust, because you are prone to deception in matters of the heart. You are a tender and sensitive lover, and you seek spiritual rather than just sexual union with your mate.

Venus in the Fourth House

Your home and family are very important to you, and your home will be as beautiful and comfortable as possible. As a parent, you provide a loving environment for your children. You enjoy entertaining at home, and you make your guests feel quite welcome. Although you're not a neat fanatic, you can't tolerate clutter and dirt for long. You will achieve your greatest pleasure and comfort later in life.

Mars in Aquarius

With Mars in Aquarius, you are eclectic, have a highly developed intellect and are good at "thinking on your feet". This makes you handy to have around during emergencies. You are very independent and insist that those whom you love accept you as you are and give you the freedom you require.

In your career you are a hard worker and have a knack for coming up with ingenious ideas to improve efficiency and effectiveness. Your friends and those whom you love

Natal Horoscope Chart Interpretation for Justin Bieber

respect both your loyalty to friends and your "live and let live" attitude in competition. You have earned the trust and respect of your many varied friends.

You are somewhat unconventional in love (and proud of it) and often fly in the face of tradition. It is not easy for you to establish lasting intimate relationships, but once you have made a commitment you are very loyal and devoted. You must be able to respect your lover and consider him or her one of your best friends.

Your love partners are likely to be "different" from society's norm. You are highly eclectic yourself and are fascinated by people who are extremely unique or unusual. It is important to you that your mate relate to you truthfully and allow you to have your personal freedom. In relationships you have a "live-and-let-live" attitude and could not tolerate a jealous or possessive lover.

Mars in the Third House

You are very assertive intellectually, and you enjoy debate and friendly arguments. You may have many disagreements with your brothers and sisters, if you have any, especially when you are young. Avoid impulsive thinking to achieve better judgment. Your mind is constantly racing, and this can make you nervous and high-strung. Meditation may help still your mind to allow your intuition to guide you.

Jupiter in Scorpio

You have a flair for finance and the management of the resources of others, as well as natural healing abilities. People are attracted to you by your magnetic personality and deep inner strength. Avoid using your power over others to manipulate and control them. With Jupiter in Scorpio, you may benefit from inheritances. You are hard-working, efficient and resourceful, and therefore you often attain your goals. Sex is very important to you, and if Jupiter is afflicted you may become obsessed with sexual fantasies.

Jupiter in the Twelfth House

You are highly idealistic, and your expectations can sometimes be unrealistic. For this reason, it is important to think things through before acting. With your deep love for humanity, you have a strong desire to help others who are less fortunate than you. You do not seek glory for your compassionate acts, but rather are content to work behind the scenes. You will receive much help from your guides.

Natal Horoscope Chart Interpretation for Justin Bieber

Saturn in Pisces

You are very intuitive and highly imaginative. You are tolerant of the shortcomings of others. Peace and quiet are necessary for your peace of mind, and you may prefer to spend much of your time alone. You may vacillate between strong emotional reaction and cold rationalism, or you may encounter such extreme behavior in your relations with others. One of your greatest challenges is to avoid a gloomy, depressed disposition. You cannot save the world and must learn to tell the difference between your problems and the problems of those whom you love.

Saturn in the Third House

You have an incredible ability to retain knowledge, especially if allowed to learn at your own pace. With your practical, cautious nature and organizing skills, you will consider every possible flaw in any plan before implementing it. Although you are quite capable, you feel insecure about your abilities and fear the disapproval of others. You have problems getting along with your brothers and sisters.

Uranus in Capricorn

(1988-1996)

You are highly ambitious and well-organized. With your strong sense of self-discipline, you can achieve your goals through perseverance and hard work. You enjoy accumulating material possessions, and should avoid a tendency to become absorbed in these physical indicators of success. Unexpected problems related to your career force you to be less serious and to pay more attention to your personal relationships.

Uranus in the Second House

You have unconventional attitudes about love and money and earn your living in innovative and original ways. You don't put great emphasis on acquiring money for its own sake, but rather you see it as a means to increase your personal freedom. You will encounter many unexpected changes in your financial situation, for the better or worse. You'll have at least one unusual lover who will change your life.

Neptune in Capricorn

(1984-1998)

Natal Horoscope Chart Interpretation for Justin Bieber

You are highly ambitious and have a good head for business. With your strong intuition and practical common sense, you seek to build a more perfect world for the future. With your keen sense of social responsibility, you would be a good educator or spiritual teacher.

Neptune in the Second House

You are extremely sensitive and will benefit from following your intuitive hunches. Because you have faith in the Universe to take care of you, you place little emphasis on money or other material possessions. For this reason, you tend to be generous and share with those less fortunate. If Neptune is afflicted, you may have a strong insecurity about money which results in desperate acts of fraud or deception.

Pluto in Scorpio

(1983-1995)

Your generation has witnessed the development of revolutionary healing techniques. Many of you have strong psychic abilities and strong desires to bring about major social transformation. Avoid using your hypnotic influence on people to manipulate and control them.

Pluto in the Twelfth House

With your strong interest in puzzles and mysteries, you are a natural born investigator or researcher. You may hold yourself back or try to hide parts of yourself from others because you fear disapproval, but this only makes them more suspicious of you. You have a strong desire to serve the less fortunate members of society. If Pluto is afflicted, avoid a tendency toward self-pity and depression.

Virgo Midheaven

You may have several careers in your life, as this Midheaven placement changes careers easily. In the variety of your career activities you tend to be something of a Renaissance man or woman. You master a job through detailed application and critical thinking. Your willingness to work long hours and attend to details makes you an excellent employee. In the course of your career you may develop exceptional reasoning powers. Your power of analysis makes you good at finding and repairing flaws. It also makes you a discriminating buyer or shopper.

Natal Horoscope Chart Interpretation for Justin Bieber

You see yourself as being of service to mankind. Health issues may be important in some way to your career. Something of a perfectionist in your work, you can be hard on others as well as on yourself. When under stress, your discriminating nature can become overly harsh, pessimistic, and fault-finding. You may vacillate between careers or become a worrying hypochondriac. As you work to bring order to the world, you become able to illuminate the choices that others have before them. This is how you make your best contribution.

Occupations consistent with your detail style of work include clerical or literary worker, secretary, librarian, physician or health worker, accountant, bookkeeper, cleaner, manager, critic, buyer, inspector, teacher, nutritionist, repairman, systems programmer, stockbroker, quality assurance expert, consultant, or any fine craft. For the most personal career guide, also consider the nature of any planets which fall in the tenth house or conjoin the Midheaven, the sign and house placements of Mercury, ruler of the Midheaven, and any aspects which other planets make to the Midheaven.

North Node in Scorpio

You have a deep desire for the finer things in life and are willing to work hard to achieve success and a sense of security. In many lifetimes you have had to accumulate and jealously guard material wealth in order to survive. Now that you have mastered this art, it is time for you to let go of the possessions you value so highly and to learn to be dependent on others. Avoid a tendency to stubbornly cling to old ideas and patterns which have worked in the past long after they've become obsolete.

North Node in the Twelfth House

In past lifetimes you have been a compulsive perfectionist and have been overly critical of others. During this lifetime you will learn to be more compassionate and forgiving of human flaws. You may undergo periods of forced isolation which will help you become more tolerant of differences in other people. Adopting a more positive attitude will help preserve good health.

Chiron in Virgo

You are very neat and organized, and you expect everything you do to turn out perfect. At home and at work, you enjoy inventing techniques and systems that are efficient and hassle-free. It annoys you to discover work that was shoddily done, and you feel compelled to correct it. You are also very concerned about your health and diet.

Natal Horoscope Chart Interpretation for Justin Bieber

In your early life, you may have felt your home life was chaotic and disorganized (and maybe even unhealthy), or else you felt it was overly planned and regulated. As an adult, you'll either follow your parents' example or go to the opposite extreme. Avoid becoming too upset about all the imperfections around you. High levels of stress will bring on physical ailments or injuries.

Chiron in the Ninth House

Your beliefs are very important to you, and you enjoy sharing your perspective on the world with others through conversation or writing. You are constantly seeking a higher truth, and you look for answers through travel, education, religion, philosophy, spiritual retreats, or anything else that will expand your consciousness. You believe in living your principles, as well as talking about them, and you are probably quite ethical.

During your early years, your family probably expected you to follow their belief system without question. Yet as you mature, you may find it difficult to continue blindly accepting beliefs without first researching them. As you discover and adopt your own beliefs and philosophies, just be sure to allow others to do the same.

Planets in Aspect

Pluto conjunct North Node (Strength: 8.41)

You are attracted to challenges. This aspect gives you a determination and an intensity that helps you cut through obstacles like a hot knife through butter. You are a very capable person. You can master anything that you put your mind to. Others could look to you as a pillar of strength for a cause. You could also be a rebel, someone who dances to the beat of a different drum. You are good at so many things that it could actually be difficult for you to settle down to one particular thing. The nature of the other planets forming aspects to your Pluto as well as the house placements may help you to make a choice. You are not so devoted to your work that you do not have an active private life; this helps to give you strength. Your low-key, efficient manner will open doors for you. You have a knack for getting to the core of any issue.

Pluto conjunct Ascendant (Strength: 8.28)

With Pluto on your Ascendant, you are acutely aware of the many illnesses of society and feel called upon to help transform the world into a better place. You are able to

Natal Horoscope Chart Interpretation for Justin Bieber

see how this could be done using the resources currently available on this planet, and you can help others to see and understand that they have the power to heal the Earth.

You are intolerant of parasitic public officials and unresponsive bureaucracies. Although you are not quick to get involved in just any cause, you will be ready to fight with a vengeance if the situation is serious enough. You could play a major role in educating the public as to the injustices they are suffering and allowing others to suffer. Because you speak clearly and with authority, others do not question your motives. Once you have taken on a worthy cause, you will not rest until those responsible for the problem have somehow been forced to face and correct it.

In your personal relationships you are self-confident and know how to set and achieve your goals. You will protect the interests of those whom you love, and you will expect the same from them. Others may consider you pushy and very intense. You tend to bring out the worst in some people, particularly if they have something to hide, so be careful who you choose as your opponent. If pushed too hard, they could become violent with you.

Moon square Uranus (Strength: 6.76)

You can be very impulsive emotionally. Your temper is easily sparked, and you can explode at those you love most. You must learn to control your temper, and face the fact that you cannot always have things your way. You may appear emotionally erratic to others.

You are quite talented and could be a good: teacher, politician, writer, or researcher. You are a believer in equal rights and may defy authority when it does not appear to be honoring someone's rights.

You must be willing to meet your partner halfway for marriage to work. You believe that marriage means one partner being dominant over the other. Yet you really need an egalitarian relationship. You must convince yourself that this is possible before you can achieve it.

You can be impatient and impulsive, and therefore may seem "accident prone". You may not have been allowed to assert your will as a child. So you tend to defy authority by rejecting the responsibility that it imposes. You are a rebel at heart.

Moon trine Mars (Strength: 6.50)

Your emotions are intense, and you may often funnel this intensity into creative projects. You have a large number of friends and enjoy good relationships with those whom you

Natal Horoscope Chart Interpretation for Justin Bieber

love. Because you are willing to compromise, others find you a pleasure to be around. You have mastered the art of relating to others and are able to be firm without being offensive or abrasive. On the rare occasions that you become really angry, you don't experience feelings of hate.

You respect the rights and privacy of others and expect the same in return. Because you are reasonably self-confident, it is not easy for you to be threatened by associates or competitors. You meet challenges with acceptance and determination to get through them. Because you are highly creative, this is usually not much of a problem. Others respect your coolness in times of crisis, especially children.

Children are especially drawn to you because you allow them to be the age they are and don't expect them to act like adults. You are warm and affectionate and don't suffer from hangups regarding rejection and insecurity. The only people you really avoid are those who are dishonest or insincere with you. Because you are emotionally independent, you find it easy to sever ties which are not beneficial for you.

You will be a good parent, although you may be somewhat permissive. You always give others a second chance when they "fail" you and don't expect perfection in those around you. You can see the good in everyone without concentrating only on the flaws they have.

Ascendant conjunct North Node (Strength: 5.92)

You could be good-looking or born into a fortunate background, but you still feel connected to the people. You have a strong drive to establish your own identity, distinct from your parents, which you do through various activities. You are probably an easy-going, versatile, and nice person. You are quite capable of thinking for yourself and then saying what you think. You keep yourself in good and relatively slender physical shape. The North Node person acts more as an individual while the South Node person acts more in association with others.

Moon trine Mercury (Strength: 5.89)

Your emotions are well integrated with your intellect, and you are able to evaluate your reactions to people and situations quickly. You learn easily from your day-to-day experiences, and you use them to enrich your consciousness. You are warm and sympathetic, and others appreciate your good nature and eagerness to help. You also have an amazing memory which allows you to recall past events in detail.

You know what your talents are and how to make use of them through creative expression. You also know how to apply yourself and get the best results on the job,

Natal Horoscope Chart Interpretation for Justin Bieber

and you are able to see problems objectively. If you know you don't have the answer, you are not afraid to ask for help. It is not in your nature to dwell on negative thoughts, and you could even be of help to others who have this tendency. Yet you will not easily reveal your own personal problems to anyone other than your most trusted friends and relatives.

It is most likely that your home life will be happy, your friendships close, and your social life pleasant. You have the ability to cope with the obstacles life presents to you. And you are compassionate enough to understand and forgive the shortcomings in others.

In your love life you can express your feelings quite clearly and can help your partner do so as well. This will prevent resentments from building over misunderstandings between you. You will probably be more aware of your partner's problems than he or she is. Be patient with them and remember that they may not be so comfortable expressing their emotions as you are.

Moon square Neptune (Strength: 4.92)

Sometimes it is difficult for you to tell the difference between reality and fantasy. When faced with an unpleasant reality, you may change the facts to make them more acceptable to you rather than deal with the situation. You have perfected the art of escapism, and you use this ploy frequently to get away from responsibilities and unpleasant circumstances.

You are extremely sensitive and care a great deal for the underprivileged members of society. In fact, you could accomplish a great deal through organizations dedicated to helping such people. But first you have to be courageous enough to look the problem straight in the eyes instead of pretending it's not there. This may be difficult for you, but it would contribute a great deal to your personal growth.

It is not easy for you to take risks, and this is one of your greatest barriers to success. Education is very necessary for you if you are to succeed--not just because of what you'll learn from books, but because of what you'll learn about human nature. This will help you to better understand yourself and others.

In your career, be careful that you can trust all professional partners you may have. Do not be tempted to indulge in shady enterprises. Others who are in competition with you would love to be able to sling mud at your reputation. Don't bite off more than you can chew; be patient and concentrate on goals that are more reasonable and short-range.

Be careful to be open with friends and lovers. Don't let little misunderstandings grow into huge problems. Be truthful with others and demand that they be so with you. It is

Natal Horoscope Chart Interpretation for Justin Bieber

better to know where you stand than to be blissfully ignorant. Don't let your fear of the unknown keep you from communicating your needs and learning of the needs of others.

Mercury conjunct Mars (Strength: 4.39)

You have an extremely active mind and always seem hungry for new information. Although you have a multitude of incredible creative ideas and may begin many projects, you rarely complete them. You don't have the patience to devote to it; there are too many other things to initiate. It is difficult to win an argument with you because you have very strong opinions and are well informed on your subjects.

With your high level of energy, you can excel at anything which you truly enjoy doing and can stick with. You are good at expressing your thoughts, so you may enjoy communications, writing, journalism, drama, teaching, law, or public relations. In any profession, you will need to cultivate a little patience and humility. Don't become known as a "know- it-all". Be willing to be as active a listener as you are a talker.

Try to be considerate of others and hear their thoughts out without interrupting, no matter how excited or enthusiastic you are. Your mind is racing faster than the speed of light, and this can have a dizzying effect on others. It can cause you to suffer physically because of the strain it places on your nervous system.

Another of the lessons of this aspect is to learn to be willing to admit you are wrong. It is not easy for you to say, "I am sorry," and this makes it difficult for those close to you to forgive your transgressions. If you are rejected by someone you love, you don't let it destroy your life. You just look for someone else who will be "better" for you, not realizing that you probably brought the rejection on yourself. While this prevents you from having to be "wrong" or to make a "mistake," it also prevents you from learning from your experiences and results in your making the same mistake again in the next relationship.

You seem to enjoy "debating" with your lover--even more so than with strangers. Just be sure your partner agrees with you and does not take your mental exercise too personally. This could lead to your partner becoming defensive and widening the distance between the two of you.

Mars square Pluto (Strength: 4.37)

You have a tendency to be overly aggressive and forceful in your dealings with others, and others often consider you to be reckless. When you impose your will upon others you can cause severe problems for yourself when they react in self-defense. You have

Natal Horoscope Chart Interpretation for Justin Bieber

a hair-trigger temper and may even resort to physical violence when upset. At the very least, you become verbally abusive.

Learn to react to unpleasant circumstances with your intellect rather than your emotions. If you have a hard time being objective, seek someone else's opinion and be willing to take their advice. You would do well to have someone act on your behalf rather than exacerbating an already difficult situation.

In your professional life be careful not to be too demanding of superiors. This could jeopardize not only your job but your financial situation as well. Learn to compromise and to hold your tongue (and your temper) when it would be in your best interest to do so. Once you accomplish this, you will be able to channel your tremendous energy resource into productive areas and will demonstrate courage, persistence and ambition.

It is easy for you to find something negative to say about anyone or anything. Try to turn this around. Learn to support others with the same vigor that you criticize them. The power of love is much greater than you think. Don't be so quick to issue ultimatums when you meet an obstacle. Instead, find a way to convince others to work with you of their own free will.

In your love life you do not take rejection well. You have a highly developed sex drive, but you must learn to rein in your aggressiveness in this area. Be sure that your relationships have other things going for them besides sex.

Sun semi-square Uranus (Strength: 4.19)

You could have had a strained relationship with your mother. This aspect makes you an independent person who does things differently. You do not go along with the status quo. You could work on a freelance basis. You are capable of excellence, but your life is unlikely to be all peaches and cream. This aspect can challenge you by subjecting you to one or more shocking or heartbreaking incidents. After you survive such a challenge, you discover that you are no longer afraid. You become more of a risk taker. You become a free spirit, one not limited by convention. You can go to extremes, including extravagance. You will go to bat for the truth even when it is unpopular. You could find ways to shine a spotlight on uncomfortable topics using humour and art. You tend to be a perfectionist, which is fine, but keep your ego in check - people do not care for a boring egotist.

Sun sesquiquadrate Moon (Strength: 3.90)

An inability to fit in can push you to pursue personal interests that lead to your becoming exceptional in some way. Challenges attract you. This aspect can make you a

Natal Horoscope Chart Interpretation for Justin Bieber

courageous adventurer. You could feel that you have a split personality, torn between your heart and your brain, between your home and your career, between your family or religious heritage and your intellectual interests. The dialectic between the two can spur your creative imagination. Your intellectual interests and your mastery of obscure or difficult details could indirectly lead to the community membership and belonging that a part of you craves. If you experience depression, seek out a therapist. You would be happiest with a wife who is a challenging intellectual partner.

Uranus conjunct Neptune (Strength: 3.67)

You belong to a generation of idealists who are acutely aware of your obligations to society and to the world as a whole. You can understand the concept of global, or even universal, consciousness and will see it as a goal to be achieved. The lies and deception of the leaders of your generation are obvious to you, and you are angered by their power plays.

Personal freedom is important to you as an individual, and you are willing to fight for everyone's right to have it. Your generation will not tolerate the many abuses of power and authority which take place in our government and political system. You are all natural born spiritual rebels. Although one person cannot do much alone, you recognize that your strength lies in working together. Your generation will insist on truth and justice from all power structures of the world.

This conjunction last occurred in the early 1820s. This current conjunction will be within orb until the mid-1990s. During the last conjunction, many inventions emerged which later made the industrial revolution possible: cement, waterproof fabric, etc. Since both conjunctions occurred in Capricorn (a sign of structure and building), it will be interesting to see what new building materials your generation develops for the future.

Jupiter sextile Midheaven (Strength: 3.23)

From a very early age, you've received a great deal of support from your family and friends. With their assistance, you've managed to be in the right places at the right times. Your eagerness to learn and your charming personality also contribute to your success in life.

Some people consider you "lucky," but in reality you have a talent for discovering opportunities that others overlook. Once you've made the connection, your self-confidence and optimism inspire others to put their trust in you. And you'll do everything in your power to see that they're not disappointed.

Natal Horoscope Chart Interpretation for Justin Bieber

Your superiors are impressed by you, and your co-workers find you a pleasure to work with. You feel good about yourself and your abilities, and you don't have to make others look bad so that you can look better. For this reason, you would make a good manager or supervisor.

Mars square North Node (Strength: 3.17)

You are an assertive man who can effect changes. You speak and write fluently. If necessary, you can be a tenacious warrior. At times you may suffer from overwork and stress. You could be an athlete when young, but you are capable of much more. You can befriend powerful people. This aspect appears to be favourable for marriage and children.

Sun trine Jupiter (Strength: 3.10)

You are a very generous person--toward yourself as well as others. Your optimism and self-confidence inspire others, and they find you a comfort to be around. Therefore, others often come to you with their problems in order to be reassured by your positive attitude. Children are especially drawn to you.

You are blessed with the gift of creativity, but you must provide the impetus to use it constructively. This aspect can give you an erroneous feeling that everything will be fine, even if you don't take any action to make it so. For this reason, you may have a somewhat lazy attitude toward life--unless other aspects in your chart provide the needed motivation to put your creative ideas into action.

Since you are not inclined to work in a hectic atmosphere, you would do best in an occupation in the creative arts. You could succeed in education, writing, philosophy, law, medicine, theater or working with animals. You prefer a career which does not make excessive demands upon you. You do not seek out challenges but prefer to be left to your own creative projects.

It is generally easy for you to get along well with others. You are not overly discriminating when it comes to choosing your friends, and therefore you have associates from all walks of life. You prefer simple people and will give freely of yourself to those whom you love. For this reason, you must be cautious of those who would seek to take advantage of your generous nature.

In your love life you are direct and to the point. You seek a mate who is somewhat sophisticated, moral, and who has good taste. Crass individuals turn you off, as do those who have a negative attitude toward life. You admire common sense and an understanding nature much more than a high education or social status.

Mars square Ascendant (Strength: 3.09)

Natal Horoscope Chart Interpretation for Justin Bieber

This aspect can be troublesome due to a belief on your part (perhaps unconsciously) that in order for your needs to be met, you must forfeit good relations with others. You carry a large chip on your shoulder and constantly challenge others to a contest of strength (of one sort or another). Once you have decided to speak your mind, there is no stopping you, and you won't care who hears you or what are the consequences. This was probably especially true when you were young, and you probably lost your temper with others frequently.

Your parents probably encouraged you to do all the things they were unable to accomplish, and you may be annoyed and resentful of these expectations. This aspect usually indicates that there was a good deal of bickering and fighting in your home as a child. Quite often, it indicates that your parents were unable to provide an education for you and that if you obtained one, it was done under your own power.

One source of the trouble with this aspect is your tendency to act impulsively and aggressively. This offends others and puts them on the offensive. In truth, you have a great deal of energy which, if channeled positively, can help you achieve your highest goals in life. You also have to resist the temptation to give up when your efforts seem fruitless. Cultivate a little patience and hang in there.

You have difficulty respecting authority figures and for this reason may encounter problems with the law or others in positions of power. This could also prevent you from advancing in your career if you are unwilling to submit to the authority of your superiors.

Venus sextile Neptune (Strength: 2.68)

You are highly creative and can use your active imagination to express yourself in a form that is pleasing and readily accepted by others. Therefore, your choice of possible occupations varies widely. In addition to your artistic abilities, you have a knack for solving others' problems. You would do well in healing professions, as a mediator in conflict management, or as a member of an organization dedicated to society as a whole. You would also excel in the creative arts: music, art, writing, etc.

You are impatient with the living conditions of those who live on the seedier side of society, and you strive to make your own surroundings as pleasant as possible. In your love life you tend to be romantic and idealistic. Your mate or lover will probably share your appreciation of the finer things in life.

In the long-run, you are looking for a soul-mate rather than just a bed mate. You tend to throw yourself into relationships, and this ends up in disappointment. Try to develop a healthy sense of good judgment and discrimination in your love life. Take the time to get to know a new love before giving him or her your heart.

Natal Horoscope Chart Interpretation for Justin Bieber

Saturn square Ascendant (Strength: 2.28)

It is not easy for you to comfortably assert yourself because you fear opposition from others. You underestimate your own capabilities and assume that everyone else is superior to you, although this is not the case. When you have an altercation with someone, you prefer to retreat rather than fight. However, if your back is against the wall and you must fight, you will use every method available to you to survive.

You are sometimes overly cautious and may allow opportunities to pass you by because you hesitate to act on them. Although it may take you a while to set your goals, you are willing to work hard for what you want once they are set. No matter what type of work you do, you will give it your all.

Your childhood was most likely lacking in warmth and affection. Your parents may have seemed a bit dictatorial to you and had a no-nonsense attitude toward rearing children. Although you respected your parents (or whoever raised you), there was no tenderness between you. This makes it difficult for you to accept and trust persons in positions of authority.

One of your main goals in life is to achieve and maintain financial security. You are quite capable of this, although you may doubt it from time to time. Since you are willing to work hard to achieve your goals and patient enough to not give up, you will eventually receive the recognition you deserve. Obtaining this respect from others will lessen your emotional insecurity and make it more likely that you will meet a loved one to share your success with you.

Sun opposite Midheaven (Strength: 2.24)

Your personal life is the most important thing to you, and it is crucial that your home and family be nurturing and supportive. Ideally, your domestic life is harmonious and happy, as you could not tolerate one that is filled with conflict. A stable and secure home life will help you establish a strong sense of identity.

It is very difficult for you to be objective about people and events in your life. You tend to judge the world according to your own values and emotional reactions. If something is not alright with you, then you can't imagine how it can be with anyone else. It probably seems to you at times that nothing could possibly be more important in life than your feelings.

You are very introspective, and your own opinion of yourself means more than the opinions of others. Rather than seeking material success in the outer world, your greatest achievement is to develop your inner qualities through self-examination and personal growth.

Natal Horoscope Chart Interpretation for Justin Bieber

Mercury square Pluto (Strength: 2.06)

One of your main lessons with this aspect is to develop self-discipline and the ability to focus your energy intellectually. Prolonged study is difficult and a strain for you, and in your early years you probably did not have good grades in school. However, you are very determined and willing to accept responsibility if others leave you alone to carry out your own projects.

You don't mince words when dealing with others, and they may find you harsh at times. This can alienate others and result in bitter feelings between you. You are very perceptive and intelligent but may at times be prone to pessimism and depression. You may swing wildly in your behavior from one extreme to the other. At times you will be brutally candid and at others you will be very diplomatic and sensitive to the feelings of others. For this reason it is difficult for you to form close relationships; your partner never knows what to expect next.

In a way you enjoy taking risks and may set up difficult situations as a test of your personal courage. Be careful not to overdo this, for you may encounter accidents, especially involving equipment which uses or contains pressure. It would not be a good idea for you to enter into a career which involves handling money, for you may take unnecessary risks. You should avoid getting into debt yourself, for this is an area of danger for you.

You would do well in a career as a detective, researcher, chemist, or medical practitioner. Before you can succeed in any career, however, you must learn to listen to your teachers and to accept advice and guidance. Pay close attention to detail in your work, for you are prone to overlooking important elements that you consider frivolous.

Avoid any temptation to manipulate others or control their lives. You have the ability to do so, but such actions will most certainly backfire. Learn to be more tolerant of others and to allow them to make their own mistakes and take whatever steps they feel are necessary for their own development.

Mercury square North Node (Strength: 1.56)

You could express your strong feelings via poetry and writing. Mentally you could dwell on tragic or disturbing matters that involve your community, which you could make it your mission to combat. You can be very meticulous. You are not cheerful - you tend towards pessimism. You could be successful in an intellectual community as an editor and reviewer.

Mercury square Ascendant (Strength: 1.48)

Natal Horoscope Chart Interpretation for Justin Bieber

Without intending to, you often express yourself with such force that other people misunderstand your meaning or are offended. Your sometimes aggressive nature is nothing more than an attempt to compensate for your lack of confidence, although most people don't realize this. You use flattery to win people over, but they can usually detect your insincerity. As your own worst critic, you continually compare your accomplishments to those of your peers.

It is possible that your education may have been delayed because of more pressing family priorities. If this is the case, you may feel intimidated by competitors who have more education or training. If you are willing to complete your education and work hard to "catch up" with your competitors, you can be as successful as they are. Remember, people can only treat you like an inferior if you feel that they are your superior. The better you feel about yourself, the better others will treat you.

In your love life you must learn to relax and be yourself when you meet new friends and lovers. You project so much nervous energy that this is sometimes all someone sees when they meet you. You send out body language which at times directly conflicts with your spoken message. Ask your partner to pay more attention to your words until you improve your communication skills to bring your spoken and unspoken messages into agreement. Avoid indulging in gossip or spreading rumors. This could cause serious damage to your relationships.

Sun semi-square Neptune (Strength: 1.37)

This aspect gives you a romantic attitude towards life. You probably found school boring. You can be fascinated with films, literature, art, and psychology. You are drawn to figure out the off-kilter mental workings of others. You live life dramatically. If love is a crime, then you are guilty. You tend to be fearless, with little regard for rules or limits. Security is not your biggest priority. You get a lot done because you are enthusiastic and rarely second-guess yourself. You can also be unrealistically optimistic and get yourself into financial trouble. In order to win, you could do almost anything, but then donate your winnings to humanitarian causes. You could have a flair for public relations and politics. Since you tend to live in your imaginative mind, almost anything is possible. With this aspect, you visualise in your mind how you would like reality to be.

Uranus sextile Pluto (Strength: 1.31)

This is a "generational" aspect, affecting most people born in the early to mid-1940s (during World War II) and also those born in the early to mid-1990s. Having been born during a time of international strife, these people are sensitive to any threats to their personal freedom by corrupt public officials. This aspect has been blamed for spawning a generation of demonstrators, protesters and others who speak out against perceived wrongs and social injustice.

Natal Horoscope Chart Interpretation for Justin Bieber

Injustices genuinely shock you and you do not hesitate to voice your feelings. You resent abuses of power by governments and "special interest groups" who hold their power over others' heads like a sword. You are also angered by political corruption, waste of public funds and mismanagement.

You have an inborn ability to detect lying or deceit in others. And you also have the courage to take steps to do something about it and even to lead others in a fight against injustice.

You also have a talent for self-discovery and examination; you are able to dig deep within the inner recesses of your own subconscious with relative ease. Because of this deeper understanding of your own motivations, you can overcome the many social and sexual taboos of your early conditioning. You may even delight in breaking as many taboos as possible, to confront the primitive drives behind them.

Neptune sesquiquadrate Chiron (Strength: 1.26)

You are a usually quiet and mild-tempered person. You are selective in your interests. You are a dreamer who may not have been the best student in school. Your career may start with you criticising, protesting, or reacting against the established way of doing things. You can attract attention by standing up for your individuality. You could be an influential theorist or spokesperson for a new method or style. You are good at improvising in the moment.

Uranus sextile North Node (Strength: 0.92)

You could have been the class clown. You are a cheerful, buoyant person who could be fascinated by the use of technology. Your innovation and creativity gets the attention of employers. You and your work can resonate and appeal to the public at the level of the soul. You have a positive connection. You can empower others. Competitors can feel threatened by how ambitious and innovative you are. You manage to keep busy into your old age. You can overwork yourself or overindulge in other ways because you have no stop button. If you don't protect your health or your finances, who will?

Uranus sextile Ascendant (Strength: 0.84)

You are a very independent person and are quite outspoken about your opinions. While you do not expect everyone to agree with your views, you do expect them to respect your right to have strong views. You have an active and highly creative mind, and you are always interested in a new subject or different perspective. You keep up with the changing trends in society and are quick to abandon the old, traditional way of

Natal Horoscope Chart Interpretation for Justin Bieber

doing things in favor of the new method. This is great, as long as you don't throw away something valuable just because it's old.

Whatever career you choose must allow you a great deal of independence and autonomy. Time is meaningless to you, and you resent being limited by the concept. You are highly inventive and would do well in any career which would allow you to implement your creativity, such as in researching and developing new products. One of your greatest strengths is your never-ending supply of unique and novel ideas. If you follow your intuition, many of your hunches will turn out to be prophetic. You will find it difficult to retire because you are continually finding new interests.

You have friends from all races, cultures and economic backgrounds. You prefer to surround yourself with other independent thinkers and enjoy sharing different perspectives with them. You are an innovative and creative lover, and you desire a partner who is comfortable enough with their sexuality to engage in fantasies with you.

Venus opposite Midheaven (Strength: 0.65)

You value your family and those whom you love above all else in life. Since early childhood, your relationship with your parents has been loving and supportive, and you have many happy memories of early life. Your parents helped inspire self-confidence in you, and as a result you are comfortable loving and being loved by others.

Your home is a source of love and harmony, and your guests always feel well cared for. The decor of your home is not only beautiful (complete with objects of art, if you can afford them), it also inspires feelings of calm and peace. A stable and secure home life is of the utmost importance to you, and you will go out of your way to avoid conflict.

With your strong appreciation for beauty, you probably enjoy getting dressed up. Your home and your wardrobe contain elements of elegance and style. If other aspects confirm it, you may also have a natural artistic ability.

Saturn square Pluto (Strength: 0.46)

You tend to resist psychological change and therefore have a difficult time going through the different transitions in life. The truth is that allowing yourself to feel a little of the emotional pain life brings from time to time keeps you human and sensitive. Resist the temptation to control others or manipulate them into doing things "your way". This will only breed resentment in others.

As a child you were probably known as a "sore loser". If you couldn't feel reasonably certain of winning a game, you wouldn't play. You probably associated with children who were younger or weaker than you so that you could feel superior. This only demonstrates your own sense of insecurity, which in time you can overcome.

Natal Horoscope Chart Interpretation for Justin Bieber

You often feel burdened by your responsibilities in life and may resent having to fulfill your duties toward others. For this reason, your professional life is apt to become a source of problems for you. Others will not put up with your efforts to dominate others. It is best to first prove your expertise on the job before adopting the attitude that you can do it better than anyone else. Just like everyone else, you must work hard to make it to the top.

Because you have a tendency to overestimate your capabilities, it is best that you consult others for advice on setting your goals and reaching them. You very much want to achieve high levels of success, but you must be willing to work hard and be patient. Don't be afraid to ask the advice of others. It doesn't show any weakness to do so, but rather the strength and wisdom of good planning.

Others may feel threatened by you, especially those whose high positions you envy. In order to get where they are, plan your life carefully, including getting a good education. That way you can at least compete with others on their own level.

Sun conjunct Saturn (Strength: 0.38)

You take life seriously and have an incredible ability to learn from every experience in life. You can handle responsibility better than most, but you will resent it if others try to pass on their loads for you to carry. It may appear that you have to struggle overly hard for your material gains. Don't waste time playing the "poor me" game. You have an ability to do without the luxuries of life and to succeed nonetheless.

As a child you probably received strict discipline and therefore matured early. You may have experienced restriction from either or both parents during your early years. You learned early in life that the world does not owe you anything, and you never expect a free lunch from anyone. Yet you emerged with a strong sense of ambition and are creative in using your material resources. Force yourself to be generous with others; the lean years have given you an appreciation for what you have, but that is no reason to be tight about it.

Idle conversation is a waste of time to you, and you usually speak only if you have something important to say. You would do well in a career in management, teaching, politics, law, science and research, or mathematics. You have the required self-discipline to shoulder the burden of such a demanding career. Just be careful not to become bitterly disappointed when you encounter setbacks. Also, be careful not to "worry yourself sick" or bring about physical ailments through overwork.

In love relationships you seek a partner who has a good sense of self-respect. He or she must also totally support your efforts to achieve your goals in life. They must also be willing to endure some sacrifice in order to receive a future payoff. You need a

Natal Horoscope Chart Interpretation for Justin Bieber

mate who is sincere and humble, and who can understand your total devotion to your life's dream. Try to choose a partner who does not take life quite so seriously as you do so that they can help lighten you up when you get too heavy.

Moon inconjunct Venus (Strength: 0.25)

This aspect shows that you give greater importance to the needs of others than to your own. You are always the first to make concessions, even though others are not expecting you to. You are not able to judge your own worth and the worth of others because of your intense emotional reaction to others. You need to detach yourself emotionally and then logically decide how competent and valuable you are.

Because you are naturally self-effacing and submissive, you attract others who would take advantage of your lack of self-worth. If it seems to you that others are constantly taking advantage of you, just remember that they cannot take anything from you which you do not freely give. In other words, you must simply learn to say "no" to others' needs more often and "yes" to your own.

Your extreme desire to please others can obscure your perspective of fairness. Don't allow fellow workers to dump their unwanted duties and responsibilities on you, and don't be afraid to speak up when someone tries to take advantage of you. Remember to make it clear that you deserve to be compensated for your time and effort, and don't allow others to keep expecting you to help them as a favor.

In love relationships, you seem to attract partners who constantly demand that you prove your love to them. This often puts you, a "giver," in relationships with "takers". Again, remember to keep the scale more balanced in your dealings with others. Otherwise, you'll only end up feeling used, and you'll be right.

Saturn square North Node (Strength: 0.20)

People can say that you are rather stiff, not a relaxed or easy-going person. Especially in public, you could speak in a halting manner. You can seem distant and disciplined. Introspective and shy, you prefer socialising with a close circle of friends. Analytical, you will study matters in depth and then come to your own conclusions. You worry about valid problems that others do not even see. This can make you a reformer. Some say that for wanting a better world you are too idealistic. Success in the real world sometimes requires compromises. It could give you security to start out learning by imitating, but then you can discover your own original voice. At least one man with this aspect has been described as a "restless genius."

Moon semi-square Chiron (Strength: 0.18)

You could have a cynical sense of humour combined with a fertile imagination. You

Natal Horoscope Chart Interpretation for Justin Bieber

understand and have a connection with the common man, with the masses. You would be good at developing or advertising products for the masses. You gradually learn what works and you continually improve your appeal. You are likely to be oriented around family and children.

FOR ENTERTAINMENT PURPOSES ONLY

Natal Horoscope Chart Interpretation for Justin Bieber

Balance of Elements and Modalities

Abundant Water

In your case, the heart rules the head. Your emotional drives are strong and you act primarily on the basis of your feelings. Whether your feelings are purely personal, interpersonal, or transpersonal is up to you, but generally you are a life-oriented person who feels keenly and who acts to support your family, friends, and community. You are happiest when you are in a caring relationship with a significant other. That person should be comfortable with the emotional closeness that you bring to relationships, while providing the structure or inspiration that you need. Some of your friends will not be as comfortable with emotional closeness as you are, and you will have to respect their boundaries. You have probably learned over the years how to keep your sensitive nature from being hurt. Don't permanently withdraw, but find the people with whom and the environment in which you can be yourself.

Because of your sensitivity, you easily pick up others' thoughts and feelings. You can anticipate others' needs before they have expressed them. You can usually rely on your intuition when it comes to forecasting the outcome of personal and career decisions. If you decide to use your psychic abilities for healing, learn to let go of the negative feelings that you process from others. Since you are so sensitive, find quiet moments for private introspection in which you can reconnect with what you feel instead of what others feel. You also find it revitalizing to be around large bodies of water.

You do have a need to stop and think things through before acting. Make the effort to communicate with others who may have a more objective viewpoint or who could see solutions that elude you. You can sometimes be criticized for acting from a purely personal perspective, which you could avoid by learning and respecting society's larger viewpoint. You can be very creative in finding paths to your personal goals. Keep the larger viewpoint in mind and later you will not have to try to rationalize to others why you chose those paths.

Abundant Air

You seem to live for mental exploration. Discovering and communicating the connections between ideas, people, and places is your function in life. Your active mind is good at identifying new frontiers whose basics you quickly master, so that you end up knowing something about almost everything. You have a dispassionate nature that coolly considers the pros and cons of a situation, able to place logic above personal emotion. From your mental viewpoint, emotions look irrational. You make a good negotiator, sales person, communicator, arbitrator, analyst, and information processor.

Natal Horoscope Chart Interpretation for Justin Bieber

Ideas flow quickly for you. While impersonal and dispassionate, you nonetheless thrive on communication and social interaction. At your best, you strive to understand and accept people, not to change them. Courageously, you adhere to principles. You appreciate culture, structure, and systems.

Your greatest strength is also your weakness, namely too much coolness from placing head above heart. Leaders must be able to follow their hearts without being indecisive or equivocating. And you ignore your real connection to others if you use your mental gifts to coldly manipulate them. Try to avoid isolation by functioning as part of a team in which your logic, analysis, and communication skills are put to good use. Work with others who may be more practical, sensitive, or passionate than are you. Don't keep your good ideas inside, but write them down and communicate them to others.

Lack of Fire

You are willing to let flashier individuals take center-stage and lead the way. You are probably unenthusiastic about change and are passive when it comes to creating change through leadership. You may be aggressive in a defensive way, but lack the self-confidence to take the offensive. Lacking the impulsiveness of Fire, you are more likely to be a careful worker and a reliable mate, though you could stand to be less detached and more personally involved with your spouse and family.

A lack of planets in Fire signs can be offset by a Fire sign ascendant or by abundant planets in the houses of Life.

Lack of Earth

You may be so focused on the "bigger picture" that you have difficulty managing the many details of life. Balancing your checkbook or leaving your bedroom clean may seem beyond your abilities. Other tasks may be important, but you find it hard to concentrate long enough to complete them. Knowing your own lack of concentration and self-discipline, you may cling to established routines because you know that you are able to do important things through force of habit. If you do not flit from job to job, you could hold onto a job or a relationship for too long because you do not trust that you will be secure without it. Your lack of real world perspective may make it hard for you to distinguish that which really matters from that which is unimportant, so that you sometimes focus on small things while leaving the really big things undone. You may say that you care about money, but unless you have abundant planets in the houses of Substance, you will not execute a detailed plan to get it. If you can avoid driving them crazy, enlist the help of those more grounded than yourself in order to turn your inspirations into reality.

Natal Horoscope Chart Interpretation for Justin Bieber

A lack of planets in Earth signs can be offset by an Earth sign ascendant or by abundant planets in the houses of Substance.

Abundant Relationships

With abundant planets in these houses, relationships and communications with others are likely to be central to your life. You can help others by exchanging ideas and making connections between people. You will probably maintain active contact with a wide circle of relatives, friends and acquaintances. You keep abreast of new information via various media and your friends.

Lack of Life

You could have difficulty envisioning or planning for the future. You are likely to accept the status quo, living in the past and present, but not actively striving to create the future. Lacking your own passionate goals for making the world a better place, you are more likely to be a follower than a leader.

A lack of planets in the houses of Life can be offset by abundant planets in Fire signs.

Lack of Substance

You are not the most grounded or practical person. The rules of this material world are not well known to you. Others may admire your dreams, but they could be impossible dreams. You may find it difficult to choose, plan, and work towards a career or vocation.

A lack of planets in the houses of Substance can be offset by abundant planets in Earth signs.

Balanced Sign Modalities

In your chart, the planets are distributed in a balanced manner between the Cardinal, Fixed, and Mutable modalities. Ability to act and survive in the world is balanced with inner insight. You stick to your values and principles at the same time that you react quickly and adapt to changes. You have the ability to listen as well as to lead. You enjoy life, but also do not shrink from facing challenges.

Abundant Cadent

Natal Horoscope Chart Interpretation for Justin Bieber

An abundance of planets in the Cadent houses helps to make you versatile and adaptable. You are flexible in your plans, adapting easily to changes or to the people whom you meet. You may travel a lot or move frequently. You are a good listener and communicator. You will use your mind a lot or frequently spend time alone during your life.

Lack of Angular

A lack of planets in the angular houses indicates little desire or drive for recognition. You adapt to the world instead of trying to change it or make your mark upon it. You concentrate on enjoying life and find ways to help others that do not call attention to yourself.

A lack of planets in the Angular houses can be offset by abundant planets in the Cardinal signs.
